SCHEDULE OF BUSINESS - MAY 18, 1953

Administration Items

Regulations - Marking State Highways

1. There is presented report from the Supervising Engineer, Bureau of Planning and Traffic relative to the erection of signs and lane markings in connection with the installation of new traffic signals or the revamping of existing signals. It is recommended that the following policy be adopted and that a clause be included in future agreements covering traffic signal installat ons and/or revamping existing installations to cover the intent of the policy:

"Where traffic signals are installed on a State Highway at its intersection with any cross street not a part of the State Highway System, the State Highway Department will, coincident with said installation, paint such lane and pavement markings and erect such signs on the cross street or roadway as are required to properly direct the flow of traffic into, out of, or across the State Highway. The maintenance or replacement of the lane and pavement markin s and such signs as are erected beyond the jurisdictional line of the State Highway, however, shall ever thereafter be the responsibility of the body having jurisdiction over the said cross street or roadway."

Accounting - Claims

2. This claim arises out of an accident occurring on September 17, 1951, at the intersection of Route #25 and Old Post Road, Raritan Township, New Jersey, involving a vehicle owned by W. B. Collins of Clayton, Georgia and operated by J. D. Williams of Brunswick, Georgia, and a ve icle owned and operated by Peter Sudol of Hightstown, New Jersey. The accident occurred when the vehicle operated by Williams attempted to stop for a stop signal and swerved slightly to the left causing Sudol, who was passing at the time, to go up upon the safety island and in so doing, struck and damaged a traffic signal pedestal. There was no actual contact between the two ve icles involved. Mr. Sudol, upon being presented with a bill, advised that at the time of the accident, he did not carry property damage insurance and requested permission to liquidate the claim on a monthly installment basis. However, before Mr. Sudol commenced his payments, he was involved in another intersectional accident, as the result of which he suffered severe personal injuries and the complete loss of his truck. The other party involved, who apparently failed to stop for a stop street, carried no insurance and the debtor has been obligated to pay considerable doctor and hospital bills and is still unable to drive his own vehicle. Recent negotiations by this office resulted in the debtor offering the sum of $50.00 in full settlement of this claim. In view of Mr. Sudol's present financial circumstances, and giving consideration to his physical condition, it is considered the Highway Department would be justified in accepting his offer of settlement of $50.00, and that the balance of the claim in the amount of $94.24 be cancelled. It is, therefore, recommended that this offer be accepted in accordance with Mr. Levine's report attached hereto.

Route 54, Section 2, Hammonton(Abandonment)

S. 30 (1953) to 2nd Road, Hammonton, New Jersey, it is therefore recommended that those parcels of land which were acquired in connection with this Line and which shall not be required for any future improvement be disposed of by public sale in accordance with existing statutes.

SCHEDULE OF BUSINESS - AUGUST 3, 1953

Administration Items

Accounting - Claims

1. This claim arises out of an accident occurring on June 3, 1951 on State Highway Route #25, near Newark Airport, Newark, New Jersey, involving a vehicle owned and operated by John P. Robinson. As the result of this accident, one Highway lighting pole was damaged and had to be repaired at a cost of $395.10. Upon presenting the debtor with a bill, he advised that at the time of the accident he was in the Armed Forces and was financially unable to pay our bill due to the fact that his entire earnings went to his parents in support of their home. He further advised that he did not carry property insurance at the time of the mishap. After his separation from the service, he was out of employment for a long period of time and was, therefore, unable to meet his obligations with respect to the Highway Department's claim. Recent negotiations by the Claims Bureau resulted in Mr. Robinson borrowing $125.00 which he has offered in full settlement of his debt. In view of the debtor's poor financial circumstances, and giving consideration to his apparent conscientious effort to do the right thing, it is considered the Highway Department would be justified in accepting his offer of $125.00 in full settlement of its claim, in accordance with Mr. Levine's report attached hereto.

Abandonment-Rt. 12(1917) Rt. 6 (1947)Rt.46 (1953)

2. Approval is recommended of the attached Determination and Order abandoning as part of the State Highway System that portion of legislated Route 12 (1917), Route 6 (1927) and Route 46 (1953), beginning at about Station 176+50 (Route 12-1917, Section 9) as indicated in the description of Portion #2 in the Resolution abandoning portions of said Route 12 effective November 1, 1927, and running thence in a general southwesterly direction to about Station 162+04 (Route 6-1927,Section 23) as indicated in another description of abandonment dated August 3, 1953 in the Township of Caldwell, County of Essex. All as shown in red on the attached plan.

Regulations - Prequalification of Bidders

3. It is herewith recommended that the following Policy be approved and adopted: In the event of withdrawal from execution of any highway construction contract by the successful low bidder, or default of a contract after award is made and the contract is fully executed by the State and the successful low bidder, the State Highway Commissioner shall bar that bidder from bidding on future contracts or subcontracting from a successful bidder of State Highway work for a period of from one to five years at the discretion of the Commissioner.

This action shall appear in the applications for prequalification of bidders as due and proper notice to those bidders.

Agreement - Port of New York Authority
Lemoine Ave. Bridge & Bridge Plaza

4. In order that formal action may appear in the official records of the Department, confirmation is recommended of letter agreement dated August 7, 1953, which agreement was approved by the Acting State Highway Commissioner on August 12,1953, covering understandings relative to work to be performed by the Port of New York Authority on the Lemoine Avenue Bridge and on State Highways in the Bridge Plaza area in connection with the Port Authority's improvement to the approaches to the George Washington Bridge, Borough of Fort Lee, New Jersey.

Fletcher Lake Improvement

5. In accordance with agreement dated May 19, 1952 between the State, County of Monmouth, Borough of Bradley Beach and Township of Neptune for the improvement of Fletcher Lake in Neptune Township, concurrence is recommended in awarding the contract for this work to Thomas Proctor Co.Inc. of Long Branch,N.J. at their bid of $66,036.00, concurrence in making this award having also been received from the municipalities involved. It is, however, to be noted that the original bid price of Thomas Proctor Co.Inc. was $122,753.00 which far exceeded the monies available to do the job. Therefore, in order to bring the cost of the work within the amount of monies available and to conform to the agreement of May 19, 1952, the original plan was revised by the elimination of several items from the contract, thereby bringing the new bid price to $66,036.00. The Deputy Attorney General advised that this is legally permissible and we are, therefore, recommending concurrence in the award of contract to Thomas Proctor Co.Inc.

Agreement - Atlantic County

6. Approval and execution is recommended of the attached agreement between the County of Atlantic and the State of New Jersey covering understandings in connection with the construction of a storm water sewer between Shore Road (Main Street) and Tunis Basin, in the City of Pleasantville as a cooperative project. The County is to pay $20,000. as its share of the construction costs and the State is to pay the total cost of the work pursuant to the terms of the proposal and contract.

At the hearing before condemnation commissioners the testimony on behalf of the State ranged from $14,202. to $20,000.; and the owners want $100,000. plus certain items such as loss of 54 working days needed for moving the plant plus loss due to water and railroad siding which was severed. The commissioners awarded $51,420., which carries interest from June 24, 1952. It is recommended that an appeal be authorized.

Right of Way - Route S4B

56. There are presented report and appraisal with map and description on Route S4B, Section 1A, Route 4 to Maple Avenue, Parcel 12, Nicholas M. Wiser. 59. There is presented again the matter of acquisition of property on Route S4B, Section 1A, Route 4 to Maple Avenue; Parcel 43, Route 4 Realty Company, on which condemnation proceedings were previously authorized. Parcel R-26, Central Airport Flying Services
" R27A & 27B, Central Airport,Inc.

on which condemnation was authorized at the meeting of June 8, 1953.

The owners, based on their appraisals by J.W.Markeim and A. J. Rosenfeld, asked a minimum sum of $725,000. Continued negotiations and conferences with the owners' representatives resulted in the owners accepting an offer suggested by this Department (based on the departmental appraisal in the sum of $510,000.) for the three parcels including also the paint shop and tap room-restaurant occupied by Claude Cinelli which lies adjacent to the area desired by the State. From these three parcels, direct access to the remaining property will be denied. The owners further agreed to convey to the State an additional strip of land adjacent to the highway right of way 30 feet in width (on part of which the paint shop and tap room are now located) with the understanding that the State will utilize this area for a land service road and construct a penetration macadam pavement 24 feet in width with three foot shoulders on each side; this additional land to be conveyed without any additional charge to the State, as outlined in the memorandum of record confirmed by letter from J. W. Markheim, Agent for the owners, and the memorandum dated October 1st, and colored maps all attached herewith. The owners agreed to permit the State to take possession of the property immediately (September 30, 1953).

It is recommended that the settlement in the sum of $510,000. be ratified and approved so that formal agreements incorporating the provisions referred to can be prepared and submitted for execution immediately.

Right of Way - Route 25 (1927)

42. There is presented a memorandum from Mr. Vollmer, Title Officer, in the matter of acquisition of Parcel 17 on Route 25, Section 32, Port St.,Newark, to Neck Lane, Elizabeth, Julius Weissman et ux, on which an agreement was previously entered into involving an exchange of lands. At the meeting of January 5, 1953, in

order to meet the obligation of the State to convey Parcel V-1A to Julius Weissman et ux, you authorized and requested the City of Newark to convey this parcel direct to Julius Weissman et ux as assignees of the State. It is now discovered that the City's legal authority in making such conveyance direct is subject to grave doubt. It is, therefore, recommended that in order to consummate the State's contract with Mr. Weissman you request the City to convey Parcel V-1A to the State at this time despite the fact that the 1943 contract cannot presently be consummated, and that upon such conveyance to the State you authorize the conveyance of said parcel by the State to Mr. Weissman under the terms of his contract of April 25, 1949.

Right of Way - Palisades Interstate Parkway

43. There is presented again the matter of acquisition of property on Palisades Interstate Parkway, Section 2G, Fort Lee Bridge Plaza to Bayview Avenue; Parcel 4, Lucille Hamilton; together with an explanatory report of a conference recently held in this case. An appeal was previously authorized from an award of $34,000. plus interest from May 8, 1953. A verbal agreement has been reached for a compromissary settlement at $32,000. flat, which would be approximately $3,000. less than the award plus interest, and also save the State the expense of further litigation and the risk of a possible higher award. It is, therefore, recommended that a settlement at $32,000. flat be authorized and that the appeal be discontinued upon execution of the agreements.

Respectfully submitted,

A. Lee Grover

SCHEDULE OF BUSINESS - OCTOBER 13, 1953

Administration Item

Accounting - Claims

1. There is presented a claim arising out of an accident occurring on July 18, 1953, State Highway Route 25, Elizabeth, New Jersey, involving a vehicle owned and operated by Frank A. Buy. As a result of the aforesaid accident, five sections of wood barricade were damaged and had to be repaired at a cost of $76.89. Upon presenting the debtor with a bill, the Claims Bureau received communications from his insurance carrier advising that they were unable to honor the State's bill as there was no liability on the part of their assured. They further advised that their assured was forced into the barricade by a large truck and trailer which cut sharply in front of him. Subsequent negotiations by this office have resulted in the insurance carrier agreeing to pay the sum of $55.00 in full settlement of this bill. The police report in connection with this mishap substantiates Mr. Buy's statement with reference to the truck and trailer cutting him off. In view of the fact that there were no eye witnesses to this accident, and giving consideration to the circumstances under which it occurred, the Claims Bureau feels the State would be justified in accepting the offer of $55.00 in full settlement of its claim. It is therefore recommended that the offer be accepted and the balance of the claim in the amount of $21.89 be cancelled.

There is presented again the matter of acquisition of Parcel 3695,Garden State Parkway, Section 10, owned by Joseph Grimes, on which a purchase agreement was previously approved in the sum of $80.00. A title report indicates that Joseph Grimes does not own the property and that the title is hopelessly involved. It is, therefore, recommended that the previous action of the Commissioner approving the purchase agreement be rescinded. Authorization to condemn will be requested by the Authority.

Respectfully submitted,

However, bills received from the company to date reveal that the actual cost of this work will exceed the estimated amount which was set up by about $3,850. Utilities - Route 44

9. Order #6 issued to the South Jersey Gas Company covering changes in their facilities necessitated by the construction of Freeway Route 44, Sections 15 and 16, Logan and Greenwich Townships, Gloucester County, was approved by the Commissioner on January 19, 1953. The estimated cost for this work was $7,530.00. At the time of the issuance of this Order it was proposed to install the main on the surface of the ground, which was somewhat chaper than installation below ground level. This was based on the assumption that the Berkley Road Bridge would be completed some time before the paving of Route 44 Freeway at that point. However, due to changes in scheduling and delays in bridge construction, it is now impracticable to install the main on the surface of the ground. It is, therefore, necessary that the 4 inch main be installed, bypassing the site, below ground level, which will probably cost about $2,000. more than was originally estimated. It is, therefore, recommended that an additional $2,000.00 be set up to cover the cost of the work under Order #6.

The engineer's estimate for this contract was $183,918.95. No item of bridge foundation excavation was included in the Proposal and bidders were instructed to include this cost under other items of work. SCHEDULES OF BUSINESS - DECEMBER 14,1953

Administration Items

Accounting - Claims

1. This claim arises out of an accident occurring on November 8, 1950, at the intersection of State Highway Route #10 and Littleton Road, Morris County, involving two vehicles, one owned by the American Red Cross, West Morris County Chapter, and operated by Lilly C. Want, a volunteer Motor Corps driver, and the other vehicle owned and operated by Joseph Carr. As the result of the aforesaid accident traffic signal control equipment was damaged and had to be repaired at a cost of $708.12. Inasmuch as both parties involved denied liability for the accident, it became necessary for the Claims Office to institute a suite in the Morris County District Court against the American Red Cross, its driver, and Joseph Carr. From their investigation of the mishap it appears that Joseph Carr was the responsible party for the accident. Their conclusion as to liability is substantiated by the fact that Joseph Carr paid the American Red Cross out of his own pocket the sum of $150.00 towards their damages which amounted to well over $1,000.00 as their vehicle was a total wreck.

Mr. Carr at the time of the accident carried no insurance on his car and at the present time is in very poor financial circumstances working only two or three days a week. The attorney who is representing Carr in this matter advises the Claims Office that he is doing so without fee, in view of his client's financial circumstances. In order to dispose of the matter amicably, the American Red Cross and Joseph Carr have agreed to make a contribution in the amount of $400.00 in full settlement of our claim.

In the event we attempt to collect the full amount of our claim by going to trial, it is quite conceivable that a verdict could be returned against Carr only, in view of the circumstances under which the accident occurred. Considering all the circumstances involved, I am of the opinion that the State would be justified in accepting the offer of $400.00 rather than run the risk of going to trial and having a verdict returned against a person who is apparently judgement proof. It is, therefore, recommended that the offer of settlement in the amount of $400.00 be approved and cancellation of the balance of the claim in the amount of $308.12 authorized, in accordance with Mr. Levine's recommendation attached hereto.

Offices - Rental

2. Approval is recommended of requesting the Division of Purchase and Property, Department of the Treasury, to approve and execute the attached lease between Rae Crowther, 50 Chews Landing Road, Borough of Haddonfield, Camden County, landlor, and the State of New Jersey, covering rental of premises known as the Old Lincoln School, situated on Lincoln Avenue in the Borough of Haddonfield, New Jersey, for use as a field office by the State Highway Department for our southern district, for a term of five (5) years from the first day of February 1954, at a monthly rental of $400.00. We have been requested by the owner to vacate our present quarters located at 514-516 Monmouth Street, Gloucester City, New Jersey.

Under date of September 26, 1941, the amount of $175,000. was set up to cover the cost of the acquisition on this section. The estimated cost of the right of way is $450,000. and authority is requested to set up this amount from Item 12 of the 1952-53 program.

Right of Way - Routes 25,38 & 45

47. There is presented again the matter of acquisition of property from the Central Airport Flying Services and Central Airport,Inc. in connection with the Airport Circle Improvement, Routes 25, 38 & 45. The original plans called for the taking of Parcels R26, R27A & 27B for which condemnation proceedings were previously authorized, in order to avoid delay in getting possession of the premises, pending the outcome of negotiations then in progress. The plan was subsequently revised; the parcels now required being designated as Parcels L-26 and M-26.

An agreement has been executed for the acquisition of Parcel L-26 and damages to the remainder, in the sum of $497,500, with the provision that the party of the first part will also deed to the State Parcel M-26 without additional cost to the State and that the State will, at its own expense, construct a 24-foot bituminous pavement along the entire length of Parcel M-26, including suitable connections to the highway at each end thereof. The agreement further provides that the owner shall have the right to remove buildings indicated on the map as #2, #3 & #5, providing same are removed on or before February 1, 1954.

In view of the fact that the settlement is considered fair, and the further fact that the aforesaid bituminous pavement will serve as a relief facility for a major traffic artery and will tend to conserve the tax ratables of the Township of Pennsauken, it is recommended that this agreement be approved; and that the actions of 6-8-53 and 10-5-53 concerning Parcels R26, R27A & 27B be rescinded.

Right of Way - Route 6A

48. There is presented purchase agreement and deed conveying a drainage easement on Route 6A (1927) Route 15 (1953) One Mile North of Sparta; Parcel E-1, F. Seymour Barr, consideration $1.00. Approval is recommended.

Examination of the title disclosed that title of record is in one Helen Hoysrodt (whereabouts unknown). Right of Way - Route 25A

70. There is presented a report regarding acquisition of property on Route 25A, Section 1, from Clifton Avenue to Passaic River; Parcel 64, Sarah Schipler, on which an agreement in the sum of $10,150. was previously approved. This agreement included the usual clause providing for owner to pay taxes for the full year in which the deed is delivered. Deed has been delivered, but because Mrs. Schipler encountered difficulty in securing the eviction of tenants, possession was not delivered to the State until July 1, 1953. Under these circumstances it is recommended that the State waive the provision in the contract providing for the owner to pay taxes for the last half of 1953.

Right of Way - Route 25

71. There is presented a report from the Title Officer regarding conveyance of property to the State by the City of Newark on Route 25 (1927) Section 34, Port Street to Foundry Street. Authority was previously granted to pay the sum of $500. upon delivery of deed to Parcel 17 (a portion of Lot 20, Block 2066). Our Title Officer reports that in accordance with the Resolution adopted by the City on October 24, 1947, it was the intention to convey to the State Lot 20 in its entirety, and deed for the entire lot (Parcel R-17) has been delivered. It is, therefore, recommended that authority be granted to accept the deed for Parcel R-17 and pay the sum of $500. therefor.

Right of Way - Route 37

72. There is presented a memorandum from the Title Bureau and other data in the matter of acquisition of property on Route 37, Section 4, Toms River Relocation; Parcel 53, Mulaz Realty Corporation, on which an agreement in the sum of $6,930. was previously approved. It appears that the Jersey Central Power & Light Company has an easement for the maintenance of a pole located on this property, which does not interfere with present requirements for the highway. It was reported by Messrs. Doll and Fritzsche that the removal of this pole, if and when required by the State, will be a proper charge against the State, under existing procedures. Authority is, therefore, requested to accept title subject to he easement by the Jersey Central Power & Light Company, and to pay the total sum of $6,930.00 to the owners upon ddlivery of deed and approval of title.

EXTRACT COPY OF THE MINUTES OF THE STATE HOUSE COMMISSION MEETING OF December 21, 1953.

****

"There was next brought before the Commission, by Governor Driscoll, the subject of the Police Barracks at Berlin, New Jersey. He stated that the conditions were completely unsatisfactory and that for some time now, a new location had been sought.

Treasurer Margetts then pointed out that the Burlington County Bridge Commission had sought certain property now owned by the State of New Jersey in order to improve the approaches to the Palmyra Bridge. The State Highway Department had placed a depreciated value of approximately $77,000. on this property. The Burlington County Bridge Commission had submitted an offer of $70,000. for the conveyance of a portion of State Highway Route 413. The said Commission owns three quarters of an acre, more or less, which would be suitable for a police barracks at or near Berlin.

Therefore, after full and complete discussion, Comptroller de Valliere MOVED that the State House Commission approve the offer of the Burlington County Bridge Commission in the sum of $70,000. for the purchase of a portion of State Highway Route 413, provided, however, that the said Commission provide the State of New Jersey with the proper deed for the three quarter acre more or less of land hereinabove mentioned for the purpose of erecting thereon a State Police Barracks. This motion was seconded by Assemblyman Hillery and unanimously carried."

I HEREBY CERTIFY THAT THE ABOVE IS A TRUE AND CORRECT EXTRACT COPY OF THE MINUTES OF THE STATE HOUSE COMMISSION MEETING OF December 21, 1953.

Right of Way - Rt. S3 Spur

25. There is presented a report from the Director & Chief Right of Way Engineer with a memorandum from Mr. Frderick Vollmer, Title Officer, requesting authority to make settlements on various properties on Route S3 Spur, Section 1, in the City of Clifton, on which agreements have been approved or condemnation authorized, regardless of a potential lien which might technically exist against these properties by by reason of an ordinance adopted by the City of Clifton on October 18, 1949, authorizing the construction of a sanitary sewer known as Ridgefield Trunk Sewer. The Parcels and names of the respective owners are as follows:

"Group A" - Parcels on which Deeds have been received but checks issued have not been delivered:

Parcel	Name
7	Fhristopher Scharg
8	Edward Haracy
9	Walter Haessner, Jr.
11	Rose Polizzotto
12	Mary Diem
R14A	Emma Schablick
R14B	Albert Schablick
15	Rudolph Lotz
17	Elizabeth R. Salerno

"Group B" - Other parcels on which deeds have been received, condemnation authorized, or action pending:

Parcel	Name
5	George Beyersdorfer
6	Henry Kappleman
10	Pershing Realty Company
R13	Ernest Hockwitt
16	Frederick Lotz

Authority is requested to accept the above listed deeds, and make final payments to owners in Group "A" and to make settlements on the remaining properties listed under Group "B" when awards have been made or deeds delivered, regardless of any potential lien which may technically exist because of the aforesaid ordinance and the construction of the sewer; since the properties referred to being acquired by the State will not be liable for assessment in any event, as these parcels would receive no benefit from the future improvement.

Right of Way - Rt. 4 Freeway

26. There is presented again the matter of acquisition of property on Route 4 Freeway, Section 46 from Route S49 to Burleigh; Parcel 6, George B. Campbell & Wife; together with reports from the Director & Chief Right of Way Engineer and the Title Officer. An agreement was previously approved in the sum of $14,000, which provided for owner to vacate the 1-½ story frame dwelling by November 1, 1953. The deed to the State was delivered, but the owners have not surrendered the premises. Subsequently, in order to avoid delay a supplemental agreement was entered into with the State's contractor in the sum of $720 for demolition of this building as soon as vacated; it being our understanding that the owners would surrender the building to the contractor upon demand. It now appears that the contractor and the owners have made arrangements for the owners to retain the building and remove it to another location; and the owners now request payment of the entire consideration if they, in turn, deposit a certified check with the State for $2,000 to guarantee removal of the building by March 1, 1954. In view of the fact that the State is paying the contractor $720 for the removal of this building, it would appear to be the contractor's obligation to make the necessary financial arrangements with the owners in this matter. However, if it is determined that time is of the essence of the entire consideration of $14,000 be made at this time providing owners deposit with the State a certified check for $4,000 under a supplemental agreement, which sum would be forfeited if the building is not removed and the right of way cleared by March 1, 1954.

Rt. 6 (1927) U.S. 46 (1953), Sec. 1-M

21. On account of the construction of Route 6 (1927), Route U.S. 46 (1953), Section 1-M, Main Street Relocation and resurfacing, Hackensack River Bridge, in the Borough of Little Ferry, Bergen County, it is necessary for the New York Central Railroad Company to relocate its pole line which is now located on Railroad property that is to be occupied by the relocation of Main Street in connection with the above-mentioned project. The estimated cost of this work is $9,000. Because there is a possibility that there may be additional pole line relocation in connection with our proposed drain on Railroad right of way, it is recommended that the total estimated cost be increased to $10,000 and that the New York Central Railroad Company be reimbursed for the actual cost involved in all of the above-mentioned work which the Railroad Company is to perform with its own forces.

Inasmuch as the City of New Brunswick plans to lay a new main throughout the length of the State's proposed construction, reimbursement to the City will be made only for the connection from the end of the existing main to the proposed new main, which connection would involve 100' of pipe.

It is recommended that the City of New Brunswick be reimbursed for the relocation of the fire hydrant and for the above-mentioned connection, all of which is estimated to cost $2,100.

Route 43, Secs. 11F and 12C

24. To accommodate the construction of Route 43, Sections 11 F & 12C, in the Town of Hammonton, Atlantic County, it was necessary for the Town of Hammonton to relocate several of its curb stops. Right of Way - Route 21

44. There is presented again the matter of acquisition of property on Route 21 (1927), Section 4B, Clay Street & Carlisle Place to Oriental Street; Parcels 22A,23A & 23B, Marie Caprio & Husband. Condemnation proceedings were previously authorized, at which time the owners were demanding $2,500. An agreement has now been executed and submitted in the sum of $1,650. It is recommended that this agreement be approved, and that condemnation proceedings previously authorized be discontinued.

Right of Way - Rt. 44 Freeway

45. There is presented again the matter of acquisition of property on Route 44 Freeway, Sections 11 & 14, Pierces Corner to Berkley Road, Paulsboro, Parcels 87A & 87B, Joseph R. Applebaum & Wife. Condemnation proceedings were previously authorized at which time the owners did not state their demands. An agreement has now been executed and submitted in the sum of $4,500. In order to avoid the expense of litigation, it is recommended that this agreement be approved and that condemnation proceedings previously authorized be discontinued.

Right of Way - Route 29A

46. There is presented a report from the Title Officer regarding Route 29A, Section 4, from one mile north of Byram to Kingwood Station, Parcel 7, Paul D. Lowman & Wife, on which an agreement was previously approved in the sum of $7,520. The Lowmans have delivered a deed which has been recorded. There is an outstanding one thirty-fifth (1/35th) interest held by Henry G. Dieter who, apparently unaware of his ownership, diedintestate in 1938, without leaving any near relatives. The monetary value of this outstanding interest is very small and does not warrant the expense of acquisition through condemnation proceedings. Furthermore, title and possession had been held adversely to the Dieter claim since 1916 and the title of the occupants of the land since that time has never been questioned. It is, therefore, most unlikely that such claim could now be enforced. It is recommended that the Lowman title be accepted and authority granted to pay the consideration of $7,520 therefor.

Right of Way - Route 28

47. There is presented a report from the Title Officer regarding Route 28 (1927), Section 30, Bethlehem-Union Township Line to N.J. Women's Reformatory; Parcel 26, Julius Rohmann & Wife. An agreement covering this parcel was previously approved in the sum of $6,250, of which the sum of $3,125 has been paid on account for the removal of the building. It is recommended that the Deed from the Rahmanns conveying an 8/9ths interest in this property be accepted, and authority granted to pay the sum of $2,777.76 on account of the balance due of $3,125.

Right of Way - Route 25

48. There is presented again the matter of Grant for Riparian Rights on Route 25, Section 38, Hackensack River Bridge & Approaches. Our original application covered Parcels T8A,T8B,T8C,T8D & T8E, but it was subsequently determined an additional area of 0.488 of an acre was required. The revised map procides for conveyance of Parcels RT8A,T8B,RT8C,RT8D & T8E. There is now presented a communication from the Department of Conservation & Economic Development stating that a fee has been fixed at $34,011.50, which includes riparian rights to be conveyed at the rate of $50 per front foot, crossing rights and $50 for proparation of instruments. It is recommended that the previous application covering Parcels T8A,T8B,T8C,T8D & T8E be withdrawn, and authority granted to pay the sum of $34,011.50 at the time the Grant is delivered covering Parcels RT8A,T8B,RT8C,RT8D & T8E.

49. There are presented report and appraisals with map and description on Route 25, 38 & 45, Airport Circle Improvement, Parcels R3A-1,R3B & 3C, Acres of Diamonds Realty Co. (Hary Polasky). It is recommended that authority be granted to institute condemnation proceedings for the acqusition of these parcels in fee simple. The owner is demanding $150,000 which is considered excessive.

50. There is presented again the matter of condemnation of lands on Palisades Interstate Parkway, Section 2G, Fort Lee Bridge Plaza to Bayview Avenue. Condemnation proceedings were previously authorized for the acquisition of Parcel 2. Subsequently the plan was revised as a result of the title search necessitating the acquisition of 0.168 acres more in Parcel R-2, Estate of Joseph Coyte. It is recommended that the previous action covering Parcel 2 be rescinded, and authority granted to institute condemnation proceedings for the acquisition of Parcel R-2 in fee simple.
